

Pro

ProMark **POB/al**

FEATURES

- Available in up to 116w incandescent.
- Aeronautical obstruction light with bottom or side entries.
- Available in single and double lamp units.
- Easy relamping through quick release side latches.
- Red fresnel lens provided.
- Retained lens helps prevent damage or loss of the lens during servicing.
- Optional transfer relay for use on 116w lamps transfers power to a second lamp when the first lamp fails.
- Neoprene gasket resists petroleum.

APPLICATIONS

- Obstruction marking
- Heli-pad marking
- Stem/pendant mount or side entry
- Airports
- Vessel mast obstruction
- Drill ships and tankers
- Cargo ships
- Crane boom marking

APPROVALS

- FAA AC 150/5345 - 43E
- FAA Type L810 Steady Burning Obstruction Light
- Compliant to: Transport Canada TP312E
- ICAO Annex 14
- ICAO Type Low-Intensity Obstacle Light
- USAF AFMAN 32-1076
